

MARK T. BARCLAY

I PREDICT

Given to Dr. Barclay
November 2020

2021 & BEYOND

"No weapon that is formed against thee shall prosper; and every tongue *that* shall rise against thee in judgment thou shalt condemn. This *is* the heritage of the servants of the LORD, and their righteousness *is* of me, saith the LORD."

ISAIAH 54:17

These things can perhaps be changed or even stopped by our response to God's warnings!

1. The battle is on. Beware of the soon-coming storm. If we stand as one, the year will be won.
2. The attack against our Constitution will rage on from within by those who want it adjusted to fit the perversion of modern man, and so will it be for the Bible. Keep the faith; hold the line.
3. We will witness the beginning of the global "reset," which will set up the world for the antichrist debut. Financial reset. Lifestyle reset. Religious reset.
4. There will be a strong move for "church displacement" as socialism and the Marxists move into local churches and try to take over.
5. The China virus "and the demon that came with it" must be bound, or we will see even more extreme draconian rules and communist-level control.
6. Even after COVID is dethroned, the antichrist spirits and demon-driven delusional people (2 Thess. 2:11) will find a new thing to weaponize against us.
7. Beware of certain vaccines (not all) and global tracking. Man will continue to use a virus or disease as an excuse to forcefully control and manipulate the populace.
8. There will be a wealth transfer this year and next. God's house is designated by God to prosper. The Lord has NOT abandoned the true Church. He will show up big this year!
9. There will be an even greater push for some to confess and repent and pay for sins of the historical past who have not committed those acts at all, neither would they ever.
10. There will be real attacks against the middle class with a goal to leave only a few very rich and powerful rulers and the rest of us poor in an attempt to force us to depend on social supply and government provisions.
11. Social media and tech giants will be more deeply exposed, and we will learn of their real motives and maneuvers. Regardless, most people will still fund them and use them.
12. The militia forces of America will be more active and involved and even more aggressive than ever before... and much more visible.
13. Something will happen with America that will wipe the grin off the faces of several foreign leaders.
14. Lethargy in many believers will be replaced by great boldness and loud witnessing. We will push back hard.
15. Christians will more and more feel the time of the Lord's coming for the Church, as sinners feel the end of the world coming upon them.
16. Nonchalant and mediocre Christianity will have to go, and so will spiritual double agency. It is mandatory to be found chasing God this year with full fervency.
17. Justice will be served in many places, and God will be involved in it, for sure. Justice will become king for a season, and multiple things will be cleared up.
18. Expect more turbulence in everyday life, and though uncomfortable it will not be life-threatening.
19. There will be constant attempts to destroy Donald Trump's reputation and life. There will also be a great display of contention in the public square.
20. China will still find ways to attack America, and you haven't heard the last of North Korea!
