

Given to Dr. Barclay November 2022

MARK T. BARCLAY

I PREDICT & BEYOND 2023

Wherefore **come out from among them**, and be ye separate, saith the Lord, and touch not the unclean *thing*; and I will receive you... 2 CORINTHIANS 6:17

Some of these things can perhaps be changed or even prevented by our response to God's warnings.

1. I predict that the **pursuit of our children** will continue to confuse multitudes of them and set them up for sexual perversion and assault.
2. I predict that we will have to **fight spiritually** like never before—in supernatural prayer, at the altars, and during worship services. Church attendance will be the medicine for all things.
3. I predict that **demons will throw great tantrums** and gain ground in every area of life... but not for those who discern them and stop them in their tracks.
4. I predict that the **woke leaders** will continue to shut down our country while trying to save our country. #delusional
5. I predict that, once again, we will be very **disappointed in the many prophetic utterances** that go forth by those who prophesy things that seldom come to pass (Jer. 5:30-31).
6. I predict that cowardly, worldly ministers and pastors will allow **more sewage to enter the Church**, right under their nose and on their watch. False doctrines and heresy will attempt to decay the validity of the Scriptures.
7. I predict that the churches and **Christians who wake up and shake themselves will win** life's battles by 70 percent over other Christians.
8. There will be **much "talk" in D.C. but little accomplished**. Prepare for surprises as things unfold—some to your liking but most not.
9. I predict there will be an attempt to suggest **assisted suicide** and that ending one's life is beautiful. Euthanasia will get a real grip on the populace of some countries.
10. I predict a **strong pushback** to draconian rules and policies, both the present ones and the ones to come.
11. There will be a constant push for **central bank** digital currency so the government will be able to have an even greater death grip on our lives. Disagree with government, and they will simply erase your worth.
12. The great reset is in motion—full speed ahead! If it isn't intercepted, it will cause such **a lethal bleed** that it will collapse nations.
13. Winter of 2023 will go down in history as **the cold year** as the green agenda continually shuts down the manufacture of fossil fuel and makes it unreachable.
14. The next crisis will most likely not be a COVID design rather **a man-made energy crisis**, both vehicle fuel and housing heat. Best to keep supplies in the cupboard as this will drastically affect the food chain.

15. We will continue to see a population reduction in democratic-run states and a constant fight to keep our freedoms in all states. Time for Christians and **patriots to live out loud.**

16. China will continue to pursue world dominance as American leadership tends to allow them to do what they want without much (if any) confrontation. It will once again prove they are our number one enemy, *not* the new financial frontier, as many have proclaimed.

17. Judgment has come to social media giants. Their infiltration of our society (their real reason for being) and their secret agendas will continue to be exposed.

18. Transhumanism will become more exposed as those pushing it become more and more vocal. Beware of **collaborative intelligence** (merging humans with artificial intelligence).

19. The spirits of the antichrist will continue to prep the human race for his arrival. Even many Christians will simply submit as though mesmerized.

20. The battle for liberty rages on—masks mandates, vaccine mandates, as well as the communist push to snoop on our lives, including bank accounts, social media, schools, and public areas. **“Comply, or be erased,”** they will say (2 Thess. 2:9-12).

21. Marxism will continue to be permitted, even in our churches. When it marries reductionism and socialism it will be a runaway locomotive (like a battering ram). We must derail this now through straight preaching and Bible doctrine.

22. The allowance of secularism and reductionism by spiritual leaders will literally propel **America’s drift from Christianity to paganism,** one of our country’s biggest threats.

23. There will be even more “Christian” separation and persecution because **political differences will be heated up** and leak into every area of life like sewage seeping into your home. Ball games, restaurants, schools, and more will be in rejection and attack mode. The antichrist is on his way!

24. America is now mostly under **the time of the judges.** Our courts will continue to prove it. Politics will so influence decisions instead of justice and our Constitution.

25. I predict that **lack of social interaction,** isolation, and separation will cause people to live depressed and even turn them violent and aggressive.

26. I predict that great power will come to those who **chase God.** No nonchalant service to the King!

27. I predict that great peace will come to those who **attend church regularly.** No skipping church—ever!

28. I predict that great direction will come to those who **live in their Bible.** No slacking off from the Scriptures!

29. I predict that great healing will come to those who **forgive everyone for everything.** No holding grudges or getting even!

30. I predict that demons and satan himself will be stopped in their tracks by the biblical **words of our mouth.** No filth or defeat in our words!

31. I predict that as we **once again kindle the fire** within, we will overcome all things. Those who don’t will suffer defeat.

32. America has been kicked down to one knee. We (God’s people) must pray, turn from our wrong ways, and seek His face to stand her back up again. Though it looks futile, **God will preserve America** to preach the Gospel to the end-time generations (“I Predict” 2022 & Beyond, #26).
