

MARK T. BARCLAY

I PREDICT

2024

& BEYOND

Given to Dr. Barclay November 2023

He that overcometh shall inherit all things; and I will be his God, and he shall be my son. | REVELATION 21:7

1 I predict that 2024 will be a year of supernatural breakthroughs for people who are severely chasing God. Severely chase Him!

2 I predict that those who make God's house a priority will totally enjoy the fruit of it and be filled with encouragement and power.

3 I predict that the woke preachers and Nicolaitan pastors will be even more exposed for what they really are.

4 I predict that the Marxism and socialism that is running rampant throughout the body of Christ will also be exposed and then rejected by *true* Christians.

5 I see and hear war in 2024—war on foreign ground, war on our streets between citizens, and war in Washington.

6 We will see an even greater gathering and coalitions for World War III, though most nations will fight hard to stay out of it. Doubtful we'll have a world war without nuclear weapons.

7 I see a coalition and axis of evil as China, North Korea, Russia, Iran, Turkey, and others join forces against freedom, Israel, and the United States.

8 Turkey will be a country to watch as they bid to be the caliphate nation and rally all Islamic populace to rise up against Jews and Christians.

9 China will continue to be a thorn in the flesh to the free world, including the United States. TikTok will continue to be challenged as a spy tool, yet many Americans will continue to fight to use it.

10 I see a great battle in our schools and a battle for our children. Parents will have a feeling that *they* birth and raise their children, but it's for the government.

11 There will be even more draconian maneuvers to control us and make us subjects to the government. Marxism will try to take an even deeper grip on our lives.

12 An anti-Christ influenced government will keep playing with the idea of a one-world digital currency and a conglomeration of powers.

13 The 2024 elections will definitely remind us of one passed. Though evil will put poison in the stew, the righteous must still vote and pray! D.C. will experience a shock wave.

14 The need to maintain a volunteer military will cause the maximum enlistment age to be raised. Money will be spent to build up our fighting forces but rapidly spent at the same time.

15 Jews and Christians will see even more persecution as the hatred for our God overtakes the anti-Christ inhabitants of our nation and the world.

16 It will be even more visible that the earth is being prepped for the antichrist's appearance and his major influence upon the human race.

17 More and more confusion will be witnessed in our government and its agencies as man tries to run the world system without true morals and biblical advice.

18 The basics will save you! Church attendance, Bible, tithing, praying, forgiving others, and a holy lifestyle will be the ingredients for a strong, safe, and joyful life.

19 Ignore those who tell you that the Bible is not accurate, sacred acts like tithing are not to be practiced, and loose living is permissible. Stick with the *whole* Bible.

20 I'm saddened that we will witness even more Christians suffer from self-destruction and self-affliction. They will cling to calling good evil and evil good. Will they slowly digress until they take the mark of the beast?

21 The gatekeepers—Amazon, Alphabet Google, Apple, Twitter X, and Facebook—will continue to monitor and control communications and slyly manipulate our lives.

22 Even so, God is still on His throne, and we belong to Him. He has made us more than conquerors, and He will lead us through the maze of the last days!

Doc Barclay
